REPORT NO.

REFERENCE COPY

1. A double cordon of Rumanian antiaircraft artillery batteries extends to the Piatra Arsa area which is situated between Sinaia and Poiana Papului. Several of these battery pieces which are of German make were used to protect Ploesti during the war. The single track railroad in this area can be used to transport ammunition for these antiaircraft artillery units.
2. Italian and French citizens who are members of the Central Committee of the Cominform are housed in the Cumpatul section of Sinaia. Rumanian ministers and Satellite diplomats have almost completely abandoned Sinaia and have moved to Predeal.
